

Alto™ Knee Orthoses

U.S. Orthotics Alto™ Knee Orthoses provide excellent control and support for ligament injuries and instabilities. An ideal brace for post MCL and ACL instabilities as well as medial and lateral instabilities. Our adjustable ROM design features polycentric adjustable hinges for convenient dial-in adjustment of flexion/extension control. Stops at 0°-15°- 30°- 60°- 90° to full ROM. Horizontal latch-top cap cover design ensures there is no inadvertent displacement of hinge pins. PDAC verified L1832

PULL ON MODEL K903

17" length with easy pull-up and pull-off loops.

Flexion/extension hinge with contoured condyle pads.

4 Velcro circumference straps with elastic compression section.
